SAMPLE CALCULATION USING BILL AT LEFT

- The water usage number on your monthly bill is 7.00
- Multiply the number by 1,000 $7 \times 1,000 = 7,000$ gallons. This is your monthly use in gallons.
- The number of days in the billing cycle is 35
- Calculate your daily household use by dividing the number of gallons 2 by the days in the billing cycle 3. $7,000 \div 35 = 200$. This is your total daily usage in gallons.
- The number of people living in your home is 4
- Divide household usage 4 by the number of people living in your home 5. $200 \div 4 = 50$ gallons. *Efficient*
