

# BUS-n-BIKE

Athens-Clarke County Transit “Bus n’ Bike” program makes daily commuting easier, safer, and more convenient for cyclists. There is no extra charge to bring your bike along. Our racks only contacts a bike’s tires, reducing potential damage. Bike racks are attached to the front bumper of the bus and can hold up to three adult-sized bikes for easy transport of bicycles on the bus.

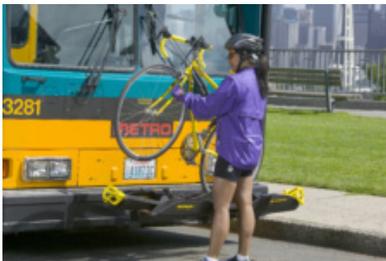

---

## LOADING INSTRUCTIONS:

### Lower Rack

- It is very important to get the driver’s attention before you load or unload your bike.
- As the bus approaches, have your bike ready to load. Remove water bottles, pumps, or any loose items that may fall off.
- Approaching from the curbside, squeeze the handle and lower the rack with one hand while supporting the bike with the other hand.

### Load Bike

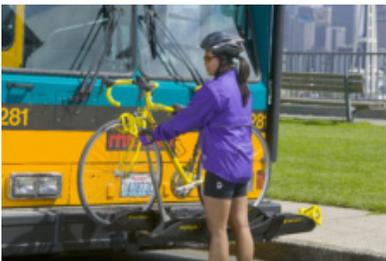

- Lift your bike and place it into one of the rack’s open wheel trays. Each tray is labeled for front and rear wheels.
- Please use available slots closest to the bus first. All bike positions are completely independent of each other, making it easy to load or unload bikes with others already loaded in the rack.

### Secure Wheel

- To secure the bike, simply pull the self-storing support arm out and over the front tire. The handle should be placed as close to the front brake and head tube as possible to ensure safety and security of the bike, and in all cases the handle must be closer to the head tube than the highest point of the tire.

### Unloading Instructions:

- Raise the support arm off the tire and move it down. Lift your bike out of the rack.
- Return the rack to the upright position if there isn’t another bike on the rack.

**MORE INFORMATION:** If you forget to retrieve your bike or the driver pulls away before you’ve unloaded it, please call Athens-Clarke County Transit at 706-613-3430. Athens Transit is not responsible for theft or damage due to improper loading, unloading or securing.
